# Speed Management Guide

May 2015 update

# Who have we engaged so far?

- Primary focus so far RCA technical staff
- Police, ACC and the AA also engaged
- Several workshops and meetings held
- Written and verbal comments received
- Today is brief summary of what you told us
- Feedback being considered

# What are the key themes?

- *Engagement and communications* challenges
- Questions about expected *pace of change*
- Technical questions about *assessment method*

FUNCTION

DESIGN

SAFETY

USE

# Pace of change

- Do we expect significant change or will it be gradual?
- Long-term aim is consistent *outcomes*, but this takes time
- Short-term goal is a consistent *approach* to speed management
- Limited scope in the 2015-18 NLTP for changing investment plans, but some reprioritisation possible
- Need to bring public on the journey, but also needs strong leadership and partnerships

---

# Safer Speeds Programme

– thank you!
