  - **Damon Norden, and**
  - **Adam Bevins**
- **Hastings District Council (replacing Matthew Rodwell):**
  - **Jag Panu**

# Communicating outputs

## 2014 Forum

- **Another successful forum in Christchurch March 2014**
- **Numbers increased from 125 to 165**
- **Two days – day 2 joined forces with**
  - **IDS – Optimised Decision Making stream**
  - **Corridor management filling a gap with wider corridor interests, utility operators and contractors**
- **46 speakers, 11 trade exhibitors, 2 international speakers**

# Communicating outputs 2014 Forum

- All papers can be downloaded (web site)
- Next year Auckland venue late March
- Contemplating a 3<sup>rd</sup> stream – Structures

# Communicating outputs

## RIMS Forum Status

- Now the premier annual event for roading asset and corridor management in NZ
- Would like to see more Roading Managers turn up to join the Asset Managers
- Need more Councils represented (at \$295 per day it's a great deal)

# Recent BOK Additions

- **Traffic Counting Guide**
- **Pavement FWD Testing Guide**
- **Road Asset Management Guide**

**Available on RIMS website  
(Look under RIMS Knowledge)**

# Current BOK Projects

- **Guidelines for Road Asset Management Information Systems (completion 14/15)**
- **Guidelines for Data Collection and Monitoring for Asset Management of NZ Road Bridges (completion 14/15)**
- **Unsealed Roads Asset Management Guide (completion 15/16)**
- **Traffic Counting Guide – Supplement (completion 15/16)**

# Future BOK Projects

- **Treatment Selection Algorithm : Integrating Project Level Decision Making to Strategic Asset Management (completion 15/16)**
- **Performance Monitoring Guide**
- **Guide to obtaining efficiency in Road Maintenance**
- **Guide to Achieving Cost Savings in Road Maintenance**
- **Standardised Road Asset Data Guide**

# Also....

- **We are about to start work on an exciting knowledgebase project**
  - **Retrieving the latest practice guidelines will be much easier**
  - **Intent is that it will be for widespread use (for example all IPWEA entities)**
- **With an increased membership you can expect to see a broader coverage, and more delivery capability**

# RIMS

Roading Infrastructure Management Support

The **Roading Infrastructure Management Support Group (RIMS)** exists to lead, promote, and develop best practice in road asset and information management to ensure consistency and efficiency across New Zealand.

The RIMS Committee and the IDS Board would like to thank the attendees of the 2014 Road Infrastructure Management Forum held on Wednesday 26th and Thursday 27th March 2014 at the Rydges Latimer, Christchurch. It was a very successful Forum and lots of learnings were taken away.

### Our Work

RIMS is here to support the New Zealand Roading Asset & Information Management Industry. This is done primarily through the development of Best Practice and facilitating Industry Liaison and Knowledge Sharing.
