Keeping Motorcyclists Safe on NZ Roads

Rob Bullick (New Zealand Transport Agency) & Kev Roberts (The Bike Academy)

The Numbers

- 3% of vehicle fleet
- 0.5% of total travel time
- 18% of fatal & serious casualties
- 22 times more likely to be killed or injured than car/van driver per for the same distance travelled

The Route

3 Main Areas of Focus

Keeping the rider on the bike

If the rider has crashed and needs medical care they are transported to hospital quickly

If the rider crashes ensure the number of hazards are reduced that will cause serious injury
