RCA Forum – 27 July 2018

# REG - the way forward

**REG** THE ROAD  
EFFICIENCY  
GROUP

We are.  
**LGNZ.**  
Te Kāhui Kaunihera o Aotearoa.

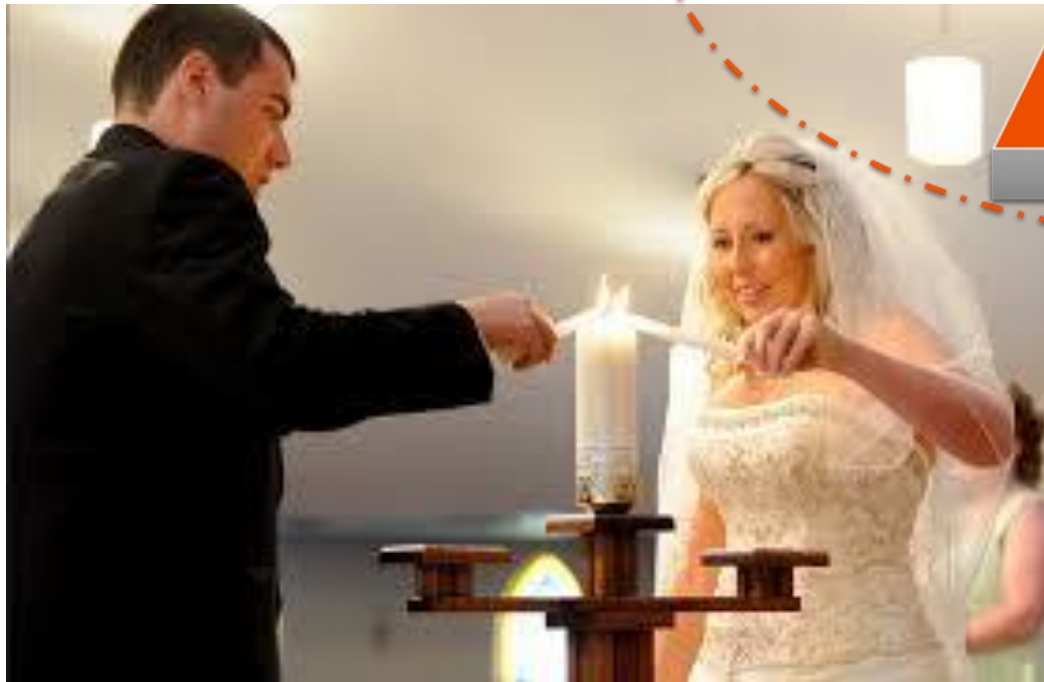

**NZTRANSPORT**  
AGENCY  
WAKA KOTARI

## **Enabling a step change in sector transport leadership and capability by December 2021.**

- Improve public confidence and demonstrate greater value for money from transport investment, by
  - Providing support and resources to the sector.

# The partnership is stronger than ever

# The REG Programme Objectives

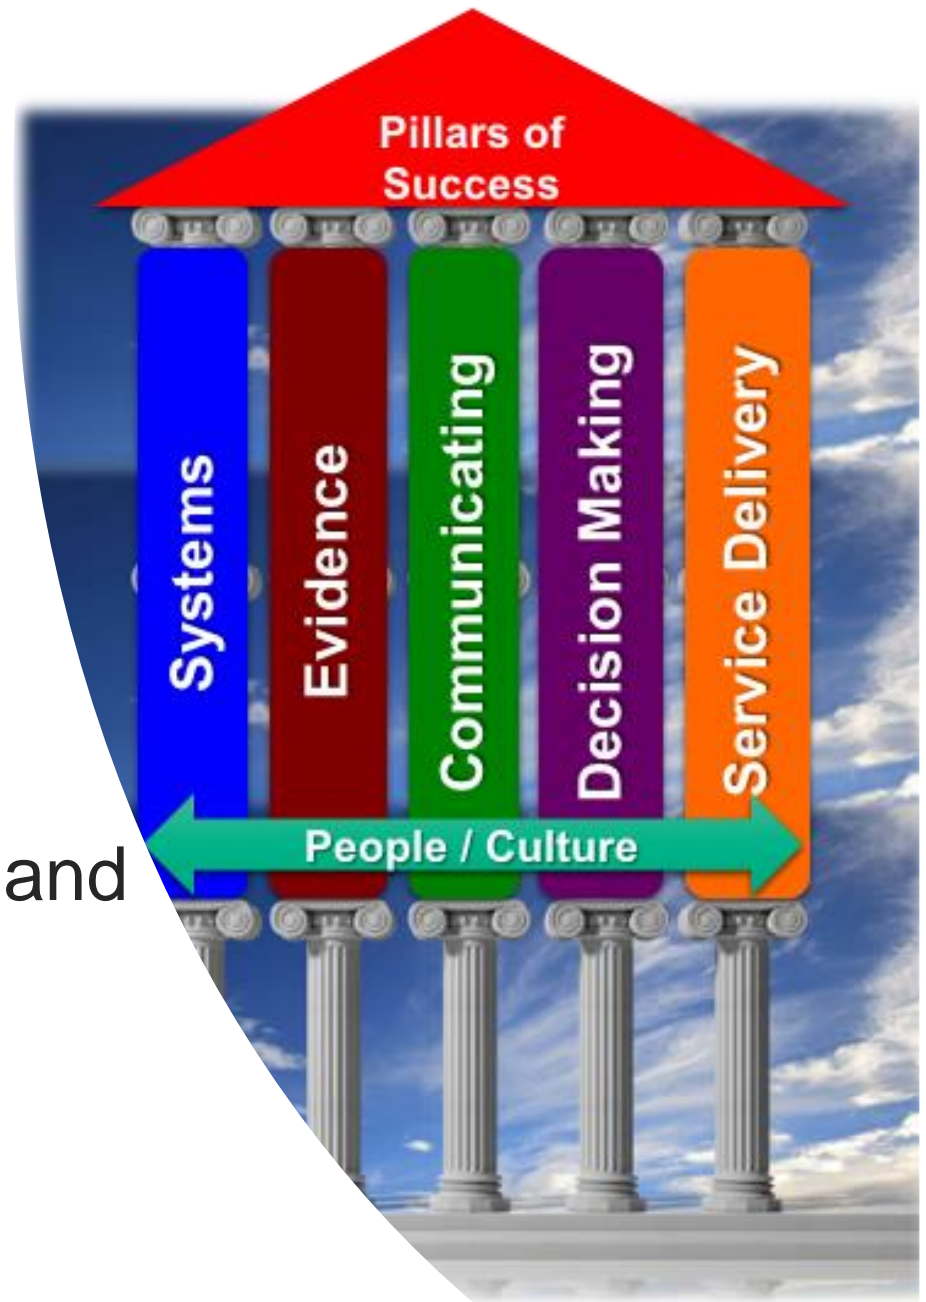

- Connecting people to build capability, enable innovation and develop customer-focused systems
- Helping the sector to understand the performance of their part in the wider transport system – including performance measurement and turning good data into evidence
- Making it easier to work together through systems standardisation and collaboration – including supporting the DEfT roll out
- Helping the sector to understand the importance of its role in planning and delivering community outcomes – BCA activity planning
- Drive business excellence across the transport sector
- Improve investment decision making

# REG

---

The REG principles remain the same, and are supported by our learning and development programme

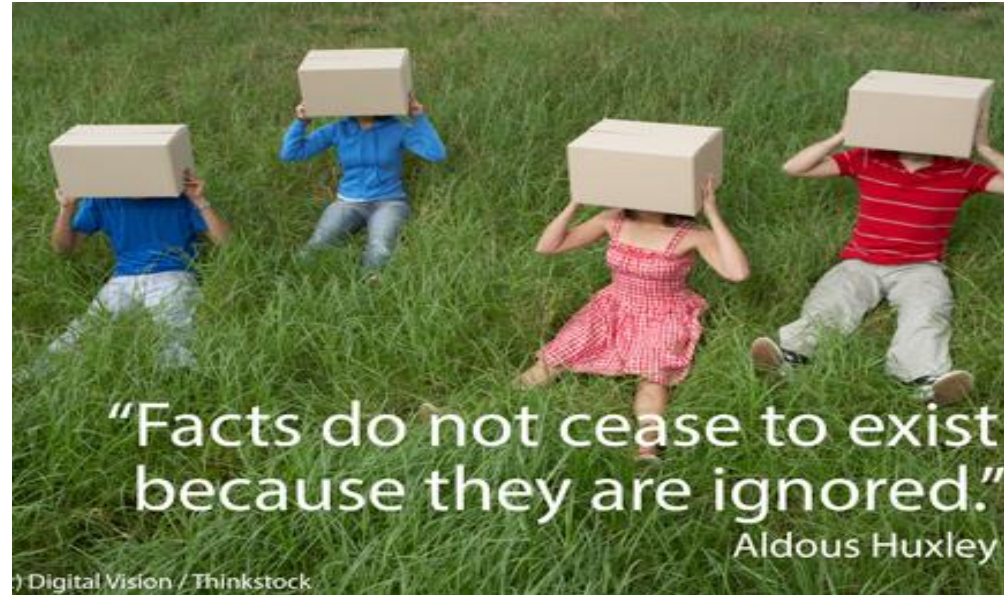

# The REG programme on a page

# Data, Evidence and Decision making

- Two data quality projects completed
- Data confidence is lifting
- Training and support is coming
