

Funding the impacts from land use on local roads

Report to RCA Forum meeting on 27 November 2015
Jamie Cox

Funding the impacts from land use on local roads

- + Why do we care ?
- + What are the options?
- + How are we finding solutions ?

Overview

- + Five work streams established
- + Working relationships with FOA and FFA established
- + FOA identifying members to join work streams
- + First draft sections being completed
- + Land use impacts now much clearer

Land use: Average ? rates per tonne per hectare from differing producers

	\$/Ha	\$/T/Ha
+ Sheep/beef farm	\$16.04	\$16.00
+ Dairy farm	\$48.63	\$1.06
+ Forestry	\$4.37	\$0.08

Comparative use of the road

- + Using 44T for laden HCV and 15.5T for unladen
- + Sheep and beef: 30.75T/Ha over 30 years
- + Dairying: 1371.33T/Ha over 30 years
- + Forestry: 1642.05T/Ha over 30 years

Collaboration

- + Next step is for the land use sectors to respond
- + Important to include all stakeholders
- + Form united front in sending appropriate funding signals

A stylized graphic of a road with two parallel lines curving upwards and to the right, rendered in a teal color. It is positioned on the left side of the white banner.
