OAG Reporting and the LTP process

Andrea Reeves, Assistant Auditor-General

Why auditors care about asset management

2

We are interested in your business ... and your core business is asset management.

Good asset information is key

3

- Reliable information is critical for asset management.
- Good processes to collection information.
- Analysis of information and how used.

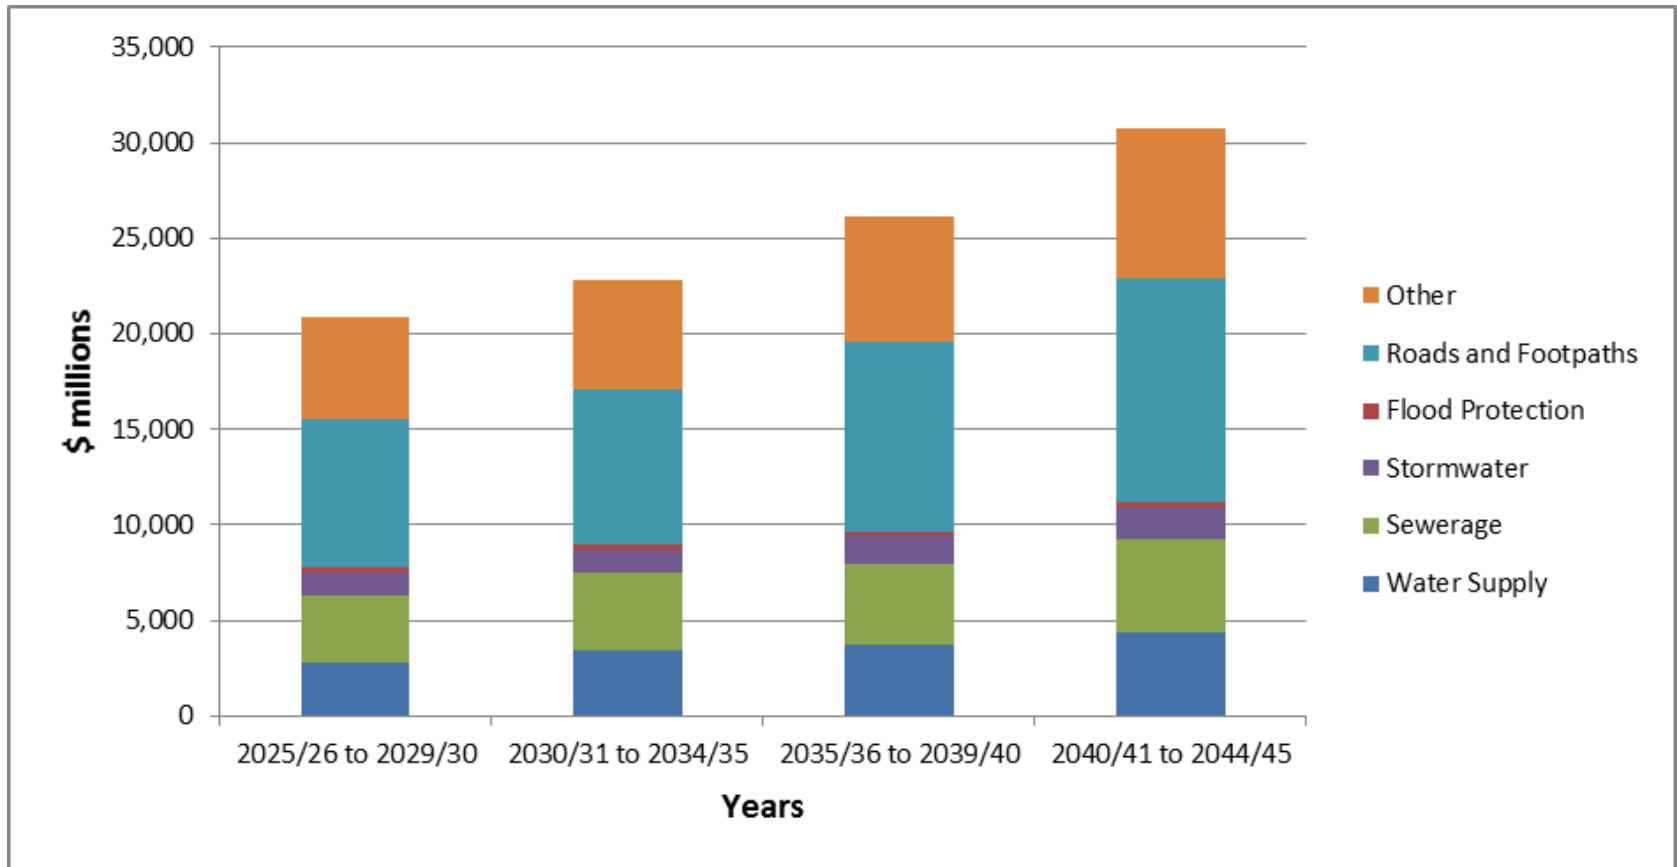

Infrastructure strategies 2015-2045

4

- Infrastructure Strategies
 - Overall, local authorities missed opportunities to clearly set out how they will continue to provide services over the next 30 years
 - Good infrastructure strategies were well integrated to the wider context of the Council and particularly to key financial information
 - Affordability was a significant issue for local authorities, however the discussion did not extend to cover the infrastructure strategy period – something to think about for the future?

Focus going forward - affordability
