

Arataki

Our Plan for the Land Transport System

Arataki

is our 10-year plan that identifies the needs of the land transport system to make sure it is fit for the future

NZTA's Strategic Approach

We contribute to the government's long term outcomes & short term priorities for land transport...

...in areas where we are well-placed to lead & partner for change...

...to deliver step changes for the land transport system...

...by using a range of levers and interventions that we apply directly or in partnership with others...

...signalled through our 10 year plan...

Long-term government outcomes
+ Short-term government priorities + Medium-term government strategies

Our organisational strategy including our eight strategic **Position Statements**

Five transport system **step changes** to deliver

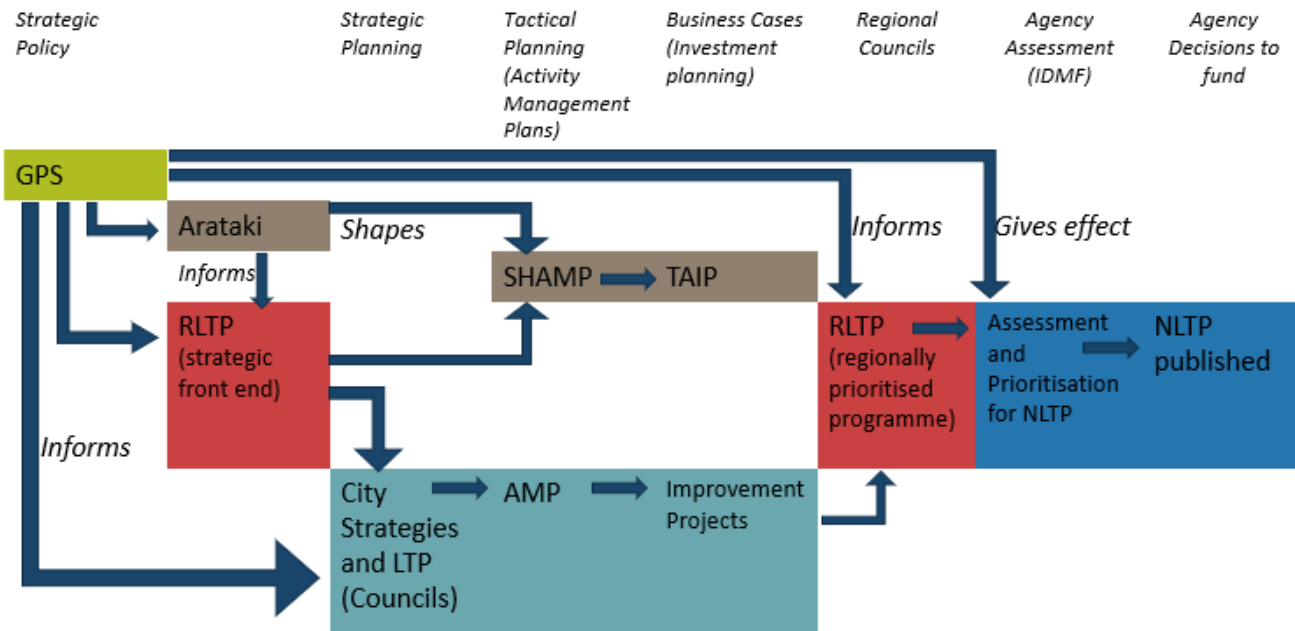

Policy & regulatory settings	Investment in infrastructure & services
Spatial & place-based planning	Economic tools (pricing & incentives)
Network design, management & optimisation	Education, engagement & awareness

Arataki: Our plan for the land transport system

Artaki will help us:

- **partner more effectively**
- deliver **place-based programmes** with our key partners and suppliers
- **improve lines of sight** between Agency functions
- support the Ministry of Transport and other government agencies set **future policy direction** and plan **revenue streams**

Where does Arataki fit in the GPS-NLTP cycle?

Key components of Arataki

- Drivers of Change
- System “step changes”, recognising need for base level of service
- National, pan-regional and regional perspectives:
 - Insights and areas of focus to achieve government priorities
 - Input to strategic context of RLTPs and spatial plans to provide a consistent national perspective and integrated, long-term thinking
 - Shaping the Transport Agency’s business plan & other programme

Next Steps

- Mid-November 2019 – Discussions with Minister, alongside MoT
- 27 November 2019 - Board meeting
- December 2019 – Arataki v1 released for engagement with local government
- April 2020 – Arataki v2
- August 2020 - Arataki v3
