# Good data, great outcomes, confident investors: what REG can do for your region

**RCA Forum** 

4 December 2025

# REG 10-year strategy: four focus areas

- 1. Asset Management
- 2. Value for Money
- 3. Investment Confidence
- 4. Data and Evidence

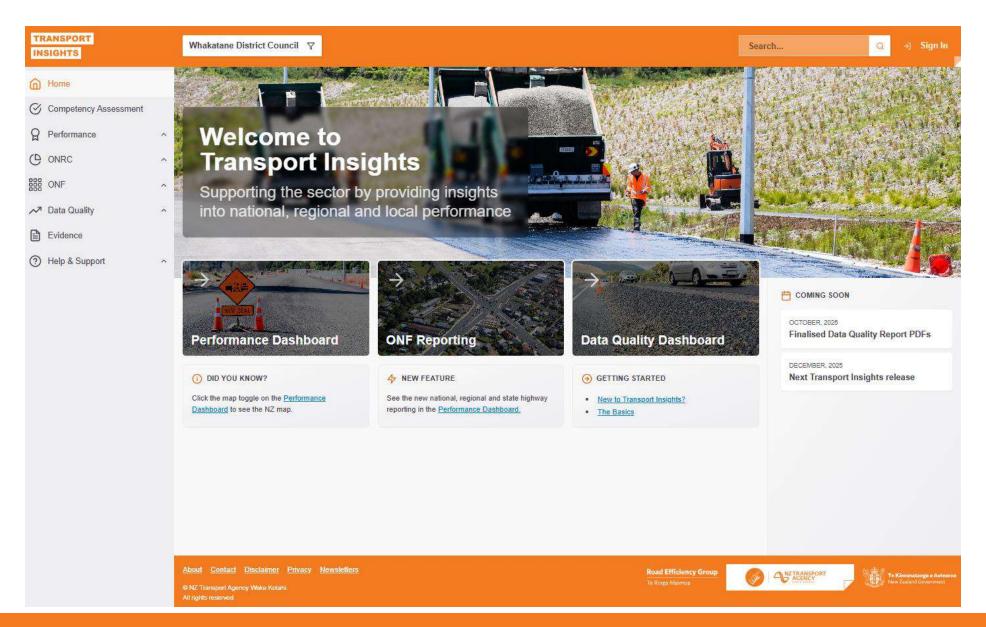

# **GPS** priority – standardising maintenance processes to find efficiency

- Expand performance monitoring and assessments
- Provide nationally consistent condition data for 100% of sealed local roads
- Develop new state highway and local road reporting
- Expand benchmarking of RCA and NZTA performance
- Establish guidance and competency frameworks
- Promote existing Transport Insights monitoring

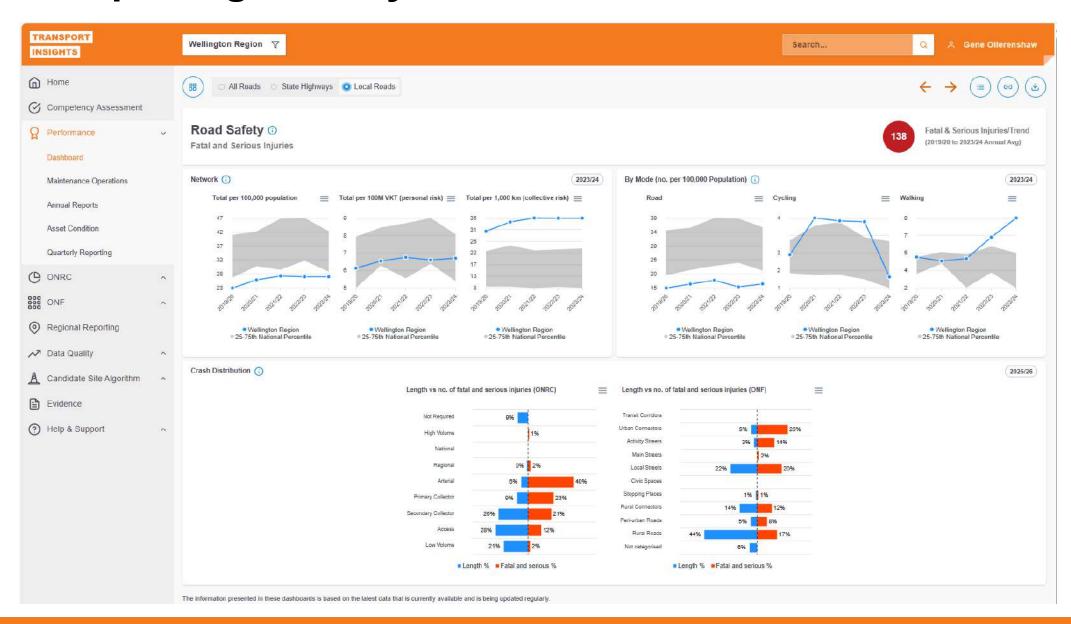

## Transport Insights - a comprehensive resource for RCAs

## National and region reporting

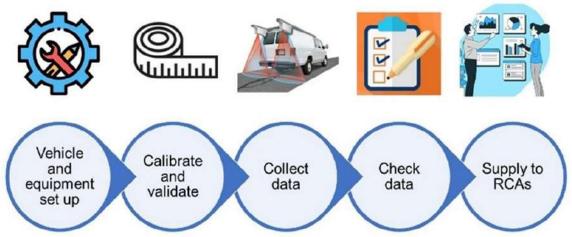

# Region reporting – safety drill down for local roads

# **Consistent Condition Data Collection project**

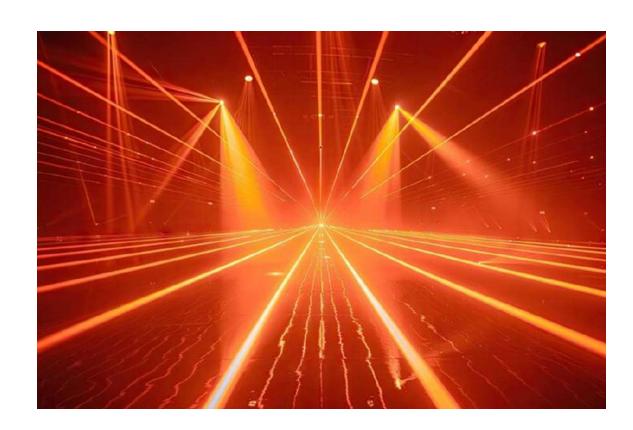

Road Efficiency Group | Te Ringa Maimoa

#### CCDC: Year 1

- More than 74,000 lane-kms surveyed
- Data independently quality assured
- Delivered to road controlling authorities asset systems
- Smooth Travel Exposure consistent methodology adopted
- Data being used and queries coming through
- Network data issues need to be resolved by RCAs

#### **CCDC: Year 2**

- RCA Planning meetings held with over 50 RCAs
- Surveying underway for 5 RCAs, and completed for 13
- Online tracker updated every week

#### Using the data:

- Asset management planning
- Treatment selection
- Benchmarking and comparison new indices and tools to support data use

# Supporting transport practitioners into the future

#### NZ transport sector has:

- Shortage of skilled practitioners
- Inconsistent understanding of what 'good' looks like.

#### The REG Competency Project:

- Develop a comprehensive framework and assessment
- Clearly define roles and transport planning and delivery activities.
- Identify skills gaps,
- Promote professional development
- Ensure our transport sector effectively supports New Zealand's future.

# Our challenge to you

- 1) Understand your data www.transportinsights.nz
- 2) Learn from your peers
- 3) Act to improve performance
